Otorhinolaryngology Dissection Courses

Otorhinolaryngology Dissection Courses

Sultan Qaboos University

01 – 05 DECEMBER 2024

Hands-On Learning

Engage in comprehensive dissection sessions guided by leading experts in the field. Gain invaluable insights into anatomical structures crucial to ENT procedures.

1

Advanced Techniques

Explore advanced surgical techniques and procedures under the mentorship of experienced faculty, equipping you with the latest practices in ENT surgery.

2

Interactive Environment

Collaborate with peers and mentors, fostering a supportive learning environment encouraging knowledge exchange and professional growth.

3

Certification

Earn recognition for participation with certificate including accredited OMSB CME Hours that validates your commitment to advancing your skills in Otorhinolaryngology.

4

EAR NOSE & THROAT
TRAINING WORKSHOPS

Otorhinolaryngology Dissection Courses Sultan Qaboos University

01 – 05 DECEMBER 2024

Rhinoplasty Dissection Workshop

Rhinoplasty Dissection Workshop is a comprehensive Hands-on training course on the Rhinoplasty technique using a fresh frozen cadaver under pioneer guidance and supervision along with the interactive lecture. Two participants will work on each specimen Read More / Register

FESS & Skull Base Course

FESS course: "Basic" endoscopic sinus surgery and "advanced" endoscopic anterior skull base surgery as corridors to skull base will be conducted with well-organized lectures and hands-on dissections on fresh cadavers Read More / Register

Endoscopic & Microscopic Temporal Bone Course

Intensive course of basic and advanced techniques of endoscopic and microscopic ear surgeries including lectures and surgical videos as well as hands-on fresh cadaveric dissection guided by instructors. . Read More / Register

Courses Chairpersons

Prof. Rashid Al Abri

Dr. Yahya Al Badaai

Date: 01 Dec 2024 | Fee: 200 OMR | CME: 6 OMSBS CME Points

- A comprehensive hands-on training course on rhinoplasty technique using a fresh frozen cadaver
- Under a pioneer guidance and supervision along with interactive lecture.
- Two participants will work in each specimen.
- 6 CME points will be given.

Each Participant will have his/her own Fresh Cadaver Dissections.

Objectives

Book Your Seat

- Patient selection and appropriate candidates for septorhinoplasty
- Understanding surgical nasal anatomy and function
- Understanding nose and facial analysis to consider aesthetic ideal that pertains to nose
- Understanding the different concepts and techniques in cosmetic and functional nasal surgery

In this workshop you will learn:

Register Now

1. Nasal anatomy
2. Pre-operative Evaluations
3. Close approach incision
4. Open rhinoplasty: step by step
5. Tip & dorsum exposure
6. Septal dissections/harvest
7. Hump reductions
8. Suture and grafting technique
9. Osteotomies
10. Live surgery step by step

Course Director

Dr. Laila Al Masaoudi

Faculty

Prof. Hossam Foda

Faculty

Dr. Vedat Tas

Date: 02-03 Dec 2024 | Fee: 350 OMR | CME: 11.5 OMSBS CME Points

“Basic” endoscopic sinus surgery and “advanced” endoscopic anterior skull base surgery as Corridors to skull base will be conducted with well-organized lectures and hands-on dissections on fresh cadavers under the supervision of known recognized pioneers’ faculty on endoscopic sinus and skull base surgery.

Each Participant will have his/her own Fresh Cadaver Dissections.

In this workshop you will learn:

1. Introduction to how to handle the nasal endoscopy.
2. Basic anatomy of sinus and skull base
3. Basic endoscopic sinus surgery
4. Frontal sinus approaches
5. Endoscopic maxillectomy
6. Advance endoscopic sinus surgery
7. Endoscopic sphenopalatine artery ligations
8. Endoscopic septoplasty
9. Endoscopic pituitary gland surgery
10. Endoscopic CSF leak repair
11. Type of nasal flap in skull base reconstruction
12. Endoscopic dacryocystorhinostomy (DCR)
13. Trans-orbital approach
14. Endoscopic nose as corridor to skull base brain

Prof. Paolo Castelnuovo

Faculty

Dr. Abdullah Al-Bader

Date: 04-05 Dec 2024 | Fee: 350 OMR | CME: 11.5 OMSBS CME Points

Intensive course of basic and advanced techniques of endoscopic and microscopic ear surgeries including lectures and surgical videos as well as hands-on fresh cadaveric dissection guided by instructors.

Each Participant will have his/her own Fresh Cadaver Dissections.
In this workshop you will learn:

Book Your Seat

1. Endoscopic preparation of the EAC
2. Dissection and elevation of the tympano-meatal flap
3. Different types of myringoplasty (overlay, underlay)
4. Middle ear exploration and identification of anatomical structures
5. Retrotympanum (and its different recesses), hypotympanum exploration
6. Protympanum anatomy (eustachian tube, ICA identification and decompression)
7. Ossicular chain exploration (keeping incus and stapes in place)
8. Atticotomy, ossicular identification and ossiculoplasty
9. Cortical mastoidectomy / canal wall up mastoidectomy
10. Facial nerve identification and decompression
11. Chorda tympani dissection
12. Tympanic membrane elevation
13. Facial recess approach
14. Atticotomy
15. Stapes surgery
16. Cochlear implantation
17. Labyrinthectomy
18. Endolymphatic sac decompression
19. Translabyrinthine approach
20. Identification and opening of the IAC

EAR NOSE & THROAT TRAINING WORKSHOPS

Dear Colleagues and Medical Professionals,

I am delighted to extend a warm invitation to you for our upcoming Otorhinolaryngology Dissection Workshops, hosted by the ENT Division of the Department of Surgery at Sultan Qaboos University's College of Medicine & Health Sciences.

These workshops are meticulously crafted to elevate your practical and clinical skills in the dynamic field of Otorhinolaryngology. Whether you're a seasoned practitioner or an eager learner, our workshops promise an enriching experience designed to deepen your understanding and refine your techniques.

We invite you to join us in Muscat, where you will immerse yourself in a transformative educational experience that promises to elevate your practice and broaden your expertise in Otorhinolaryngology. Seize this opportunity to learn from esteemed faculty members and connect with peers who share your dedication to excellence in healthcare.

Prof. Rashid Al Abri
Professor, ENT Sr. Consultant
